

SIGN IN ON A DEVICE

- 1 Open the live app.
- 2 Sidebar → **SYNC** panel → type your email.
- 3 Click **SEND MAGIC LINK**.
- 4 Open the email, click the link — you're in. Panel shows **SYNCED**.
- 5 Repeat on other devices with the **same email** to share data.

RUN A DIRECTIVE

- 1 Pick the **active business** (top-left).
- 2 Scope: **Single business**. Mode: **AUTO** (sidebar).
- 3 Optionally drop documents to analyse.
- 4 Type your directive.
- 5 **ISSUE** (or ⌘/Ctrl+Enter). Read the gold executive briefing.

ASK A FOLLOW-UP

- 1 After a run, scroll to **CONTINUE THE THREAD**.
- 2 Type the follow-up question.
- 3 **ASK FOLLOW-UP** — only the relevant specialist(s) respond, building on the briefing.

CROSS-BUSINESS DIRECTIVE

- 1 Set Scope to **Cross-business**.
- 2 Tick **2 or more** businesses in the chips.
- 3 Type the portfolio question → **ISSUE — PORTFOLIO**.
- 4 Result covers synergies & conflicts, filed under each business.

ADD A MEETING

- 1 **MEETINGS** tab (sign-in required).
- 2 Pick provenance: **Own transcript** or **Imported notes**.
- 3 Drop a transcript/notes file (.vtt/.srt/.txt/Word/PDF...).
- 4 Fredrick structures it into decisions, action items & flags.

WEEKLY MEETING REVIEW

- 1 Open the **MEETINGS** tab for the business.
- 2 Click **WEEKLY REVIEW**.
- 3 Get the last-30-days summary with carried-forward open items.

TURN ON AUTO-REVIEW

- 1 Business switcher → ⚙ **EDIT CURRENT**.
- 2 Scroll to **Scheduled Auto-Review** → tick it → Save.
- 3 A review is generated every **Monday 07:00 Lagos** into history.

BACK UP YOUR DATA

- 1 Sidebar → **Export Data** → saves a JSON file (no key inside).
- 2 To restore: **Import** → choose the file → confirm.

EXPORT A BRIEFING TO PDF

- 1 After a run, click **EXPORT PDF**.
- 2 In the print dialog, turn **off** "Headers and footers".
- 3 Save as PDF.

FIX: MAGIC LINK → LOCALHOST

- 1 Delete all old magic-link emails.
- 2 In Supabase → Auth → URL Configuration, save the live Site URL + Redirect URL.
- 3 Send **one** new link from the **live** site and click it.
